

Safe Workplace Applications

Activate your Back-to-Work Strategy with Contender Solutions

As organizations plan to return to the workplace and require safe back-to-work strategies, ServiceNow has released 5 Safe Workplace applications to help:

Employee Readiness

PPE Inventory Management

Contact Tracing

Employee Health Screening

Workplace Safety Management

As an Elite ServiceNow partner, Contender has developed a flexible deployment model for these Safe Workplace Applications.

We are offering complimentary set up of ServiceNow's Safe Workplace applications upon subscription to our managed services.

Our managed services provide “Service Support” of your ServiceNow environment and extend the delivery capabilities of your team which includes enhancement & development, integration work, and maintenance & sustainability.

With a (3) month subscription of our Managed Services, your organization will receive implementation services of the Safe Workplace apps at no cost. Our team will leverage critical ServiceNow expertise to help your organization return to the workplace safely and with peace of mind.

We'll help you get Back-to-Work safely

As your organization plans and implements "Back-to-Work" strategies to create, manage, and welcome your employees, our Managed Services Team and ServiceNow's Safe Workplace Apps will help you achieve:

- **Enhanced Employee engagement and feedback**
- **Effective current and future change communication**
- **Safeguarding properties for low-risk activity**
- **Maintaining a safe work environment**
- **Automating return steps where applicable**

The complimentary setup includes:

- Configuration of core application functionality
- Activation of all plugins and out of the box workflow(s)
- Pre-built project plan, prepared per application,
- Contender's playbook equipped with best practice configurations

Contender Solutions is ready and able to help your organization adapt to the new normal. Our team will work with you to align the recommended release schedule of the Safe Workplace applications to your organization's priorities and timelines based on your Back-to-Work Strategy.
